OUR PRESENCES IN ASIA

1,967,000 tonnes of GHG emission avoided (eq. CO₂)[^]

Veolia's ambition to be the champion of ecological transformation is immensely prominent in Asia, where projects throughout the region save around 2 million tonnes of greenhouse emissions every year, while serving vital industries and burgeoning municipalities with dependable water, energy and waste solutions.

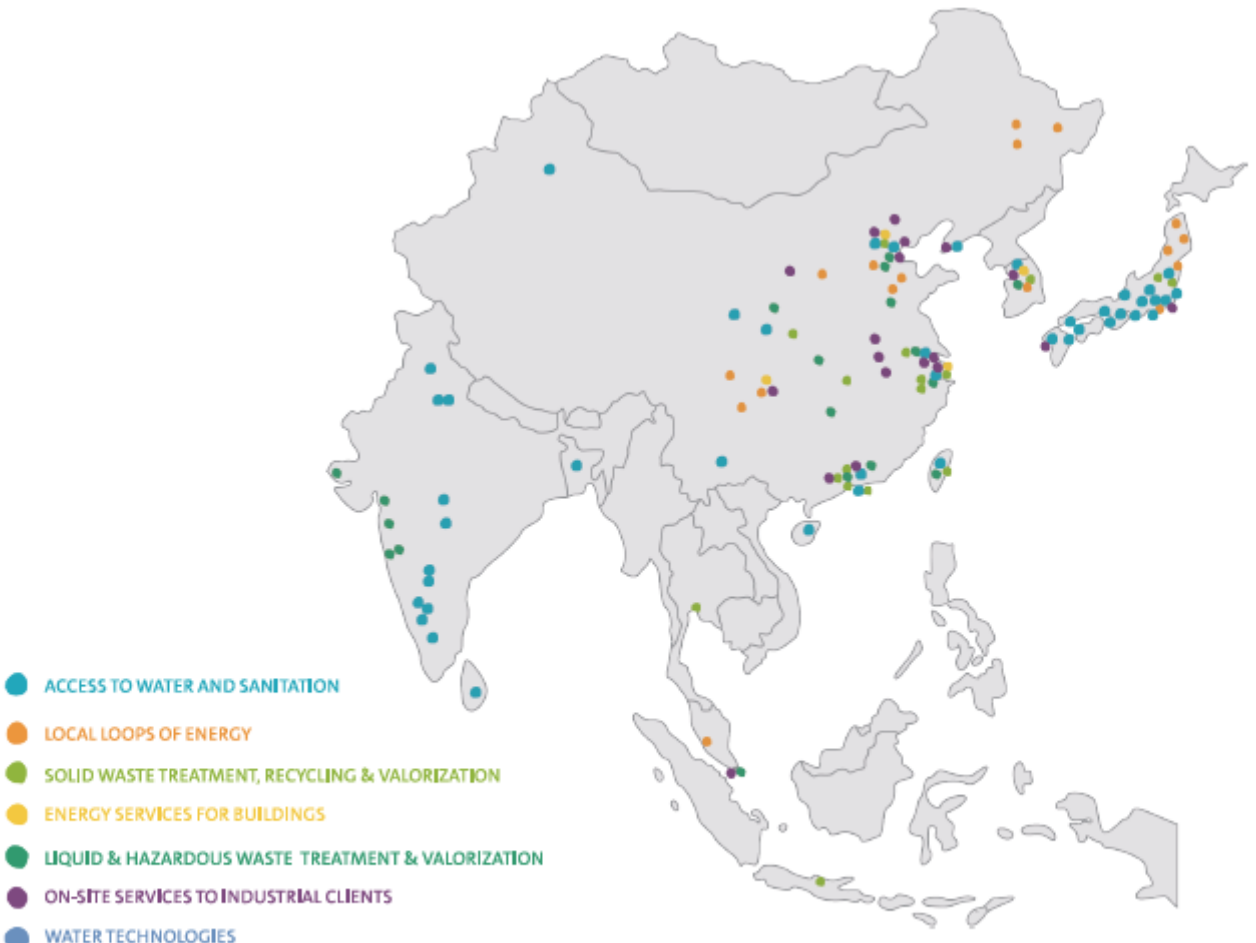

[^] data consolidated by 31/12/ 2022

27,424 employees in 7 business units*.

Across seven business units — Mainland China & Macau , Hong Kong , Taiwan , India, Japan, South Korea and Southeast Asia — Veolia Asia offers a full spectrum of water, waste and energy management services, including water and wastewater treatment, commercial and hazardous waste collection and treatment, energy management, resource recovery and on-site services to empower industry to meet the most challenging growth targets on the planet.

* data consolidated by 31/07/ 2022

ECOLOGICAL TRANSFORMATION, THAT IS OUR

PURPOSE

Ecological transformation means acting to reconcile human progress and environmental protection.

We develop and implement locally solutions to depollute our vital resources and preserve them from depletion, solutions to decarbonize our ways of living and producing and adapt them to the consequences of climate change.

UN Sustainable Development Goals (SDGs)

Committed to
Turning the tide
and becoming the benchmark company of
Ecological Transformation
